- EMSP 1140 *Special Patient Populations (3)*
- EMSP 1150 *Shock/Trauma for EMT (3)*
- EMSP 1160 *Clinical/Practical Apps/EMT (1)*

Total: 16 Hours

Program Description

The Emergency Medical Technician technical certificate of credit prepares students to provide basic emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Emergency Medical Technicians perform interventions with the basic equipment typically found on an ambulance. The Emergency Medical Technician is a link from the scene to the emergency health care system. Successful completion of the program allows the graduate to take the National Registry of Emergency Medical Technicians EMT certification examination and apply for Georgia licensure as an EMT. This technical certificate of credit replaces the previous EMB1 "Emergency Medical Technician (Basic)" technical certificate of credit. Criminal background checks and drug screens may be required based on the requirements for participation in clinical experiences.

Program Specific Information

See Program Webpage for specific program entrance requirements. EMSP courses begin Spring Semester. Contact Program Advisor for specifics. ALHS 1011 and ALHS 1090 must be completed before taking any EMSP courses.

Licensure Information

Upon successful completion of the EMT technical certificate of credit, students may be able to sit for the National Registry of Emergency Medical Technicians (NREMT) EMT certification examination. <http://www.nremt.org/>

After successful completion of the NREMT examination for EMT, students may apply for Georgia state licensure through the State Office of Emergency Medical Services and Trauma (SOEMST). <http://ems.ga.gov/>
