Management and Supervisory Development Degree

The Management and Supervisory Development program prepares experienced workers for entry into management or supervisory occupations in a variety of businesses and industries. The Management and Supervisory Development Associate degree program provides learning opportunities which introduce, develop, and reinforce academic and occupational knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Program graduates who are experienced workers are prepared to perform management and supervisory functions such as employee training, labor relations, employee evaluation, and employee counseling and disciplinary action. Each course within all of Lanier Technical College's diploma/certificate level programs is acceptable for full credit toward the general elective hours for this associate degree. Graduates of the program receive a Management and Supervisory Development Associate of Applied Science degree with a specialization in Human Resource Management, Mining Management or Service Sector Management. This program is offered by the Management and Supervisory Development (MSD) department.

Availability

Students are accepted every quarter based on course and space availability. This program offers day, evening and online classes at the Oakwood and Forsyth Campuses.

Program Costs

[Click here](#) to view program costs.

Financial Aid

Students in this program may be eligible for the HOPE Scholarship and the Pell Grant.

Requirements
