

## **NetLibrary Online eBook Collection**

**NetLibrary** provides access to a collection of over 26,000 full-text research, reference, and general non-fiction electronic books (eBooks). You read eBooks directly online. You can search by author, title, subject, keyword, publisher, ISBN, etc. or browse by topic categories. You can search every word within a particular eBook.

### **Access NetLibrary from the Lanier Tech Library Home Page :**

- Click on the Online Resources button
- Scroll down to NetLibrary link.
- Students off-campus must type in the current GALILEO password

Email the librarian [bhedrick@laniertech.edu](mailto:bhedrick@laniertech.edu) for this quarter's GALILEO password

### **Search and View Online books**

- Enter your search terms in the Basic Search box. Default search is by keyword, but you can search by Title, or Author. Click on Search Tips for additional search options.
- Locate eBook title you want to view from the results list and click on View This eBook. You now have access to the entire book online.
- You can look for the index, table of contents, or can search word-by-word throughout the book by simply typing the word in the lower left Search this eContent.
