### Lanier Tech Welcomes SACSCOC

Peers from other universities in the southern states will be visiting LTC to reaffirm our accreditation with the Commission on Colleges of the Southern Association of Colleges and Schools (SACSCOC). On November 10—12, LTC will host a team of SACSCOC visitors who will provide perspective on our Quality Enhancement Plan (QEP), which is a significant component to LTC's reaffirmation visit. The QEP focuses on student learning in the math learning support program, however it is much more than just an accreditation requirement. It is intended to enhance the quality of learning and help our college and the people we serve.

GIVE ME an M!  
GIVE ME an M!  
GIVE ME an O!

Lanier Tech's Faculty and Staff got into the spirit of "Math Multiplies Opportunities" during Institute Day in October.

Advisor training, communication updates, course design, and assessment goals were a few of the topics reviewed during the productive sessions.

### Teachers Training Teachers!

The Lanier Tech Math Teachers had the privilege of participating in a two day training in October with math curriculum specialists, Dr. Paul and Mrs. Kim Nolting and Marni Phipps. Dr. Nolting is the author of Winning at Math: Your Guide To Learning Mathematics Through Successful Study Skills. He is an adjunct instructor for the University of South Florida and Florida Gulf Coast University, teaching Assessment and Appraisal courses at the graduate level. Ms Phipps is an associate professor of math at the University of North Georgia.

The training was an invaluable experience for the Math Instructors as they prepare for the upcoming pilot program for the QEP.
