

Office of the President

June 4, 2012

Dr. Belle Wheelan, President
Southern Association of Colleges and Schools
Commission on Colleges
1866 Southern Lane
Decatur, GA 30033

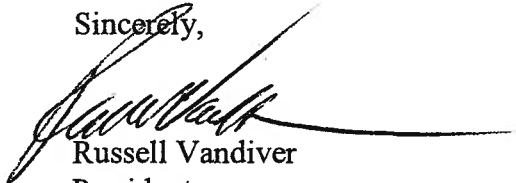

Dear Dr. Wheelan:

I am writing to inform you that Lanier Technical College has reached an agreement with the Atlanta Sports Academy — a post-graduate preparation academy — to serve as its preferred provider for college-level course work, with a portion of their courses to be taken at Atlanta Sports Academy's campus.

Under this agreement, Atlanta Sports Academy students would have the option of attending Lanier Technical College college-level courses for transfer to four-year schools. Students may take courses from our Healthcare Science TCC, Technical Specialist TCC, or Automotive Technology AAS Degree. Students may take up to five courses at Atlanta Sports Academy's campus, which puts the amount of instruction delivered at the site below 50% of credits in the award.

If you have any questions about this agreement, please contact our COC liaison, Dr. Joanne Tolleson, at 770.781.6950 or jtolleso@laniertech.edu.

Sincerely,

Russell Vandiver
President
