Memorandum to File

RE: LTC Substantive Change Request Determination

FROM: LTC Institutional Effectiveness Office

Request Details (to be completed by Director of Curriculum, Instruction, and Professional Development):

Date of Request: May 22, 2025
Description of Change: Termination of CNC Specialist TCC (CS51)
Award and Major Code: CNC Specialist TCC (CS51)
Location: Hall
Program Director: Tommy Morris

Division and Program Group	ATE, Precision Machining
Campus/Site Address of Change if New Site:	NA
Change Type:	Termination
Expected Implementation Term:	202514
Leadership Team Approval Date:	12.17.2024
State Board Approval Date:	2.6.2025
Crosswalk Completed (Yes or NA)	NA

Rationale for Internal Decision:

New Programs: SACSCOC policy dictates that a new program created from existing approved courses (i.e. a “repackaging”) where there is less than 25% new content is not considered a substantive change.

Program Length: Changes to curricula where "program credit hours (or an equivalent or comparable measure of progress such as clock hours or demonstrated competencies) increase or decrease by 25% or more" AND "students' expected time to completion increases or decreases by more than one term or its equivalent or comparable measure" is not considered a substantive change.

Program Closures: The SACSCOC *Substantive Change Policy and Procedures* states: “Program closure is not required for a specialization embedded within a discipline-specific program.” This applies to TCCs within a program group with a degree or diploma: terminating one or more TCCs but keeping the program group open is not considered a substantive change.

Substantive change requests and decisions are archived in the College’s [Substantive Change Log](#).

IE Analysis of Significant Departure and Decision:

The CNC Specialist TCC program had no enrollment therefore, the TCC is terminated. Precision Machining is the program it is umbrellaed under and it is still active.
