

LANIER

Technical College

Office of the President

May 6, 2014

Dr. Belle Wheelan
Southern Association of Colleges and Schools
Commission on Colleges
1866 Southern Lane
Decatur, GA 30033

Dear Dr. Wheelan:

On December 16, 2013 you responded to our letter and prospectus proposing a Histology Technician AAS degree program. The Commission questioned the credentials of Ms. Sarah Davis to teach HUMN 1101 Intro to Humanities.

We agree that Ms. Davis' credentials do not adequately support the historical, cultural, and fine arts dimensions of the course. Accordingly, Ms. Davis will no longer be assigned to teach the course and we will offer ENGL 2130 American Literature to satisfy the Area IV Humanities/Fine Arts component of the curriculum. We will not schedule HUMN 1101 until we are able to hire a faculty member with credentials clearly aligned with the course description for HUMN 1101.

The Commission also asked for a description of the library and learning resources specific to the discipline of Histology that are available to faculty and students in the program, in both print and electronic formats. The College's Director of Library Services has prepared a list of histology- and pathology-related materials currently in the College's library holdings (enclosed). In addition to the listed materials, the College intends to purchase any additional materials needed in the upcoming fiscal year. The College will select these materials based on the Program Coordinator's recommendations, as well as outside review sources including *Doody's Core Titles* and *Choice Reviews*.

Should you have any questions, please contact our COC liaison, Dr. Joanne Tolleson, at jtolleso@laniertech.edu or 770.781.6950. If this letter satisfies the Commission's concerns please let us know in writing so that we may notify the DOE that we plan to offer this program.

Sincerely,

Dr. Ray Perren, President
Lanier Technical College
