Lanier Technical College has revised the curriculum for the existing Technical Certificate program in Nurse Aide. The revisions were made by program faculty in order to modernize the curriculum content and to streamline course offerings. One new course (two credit hours) was added to the required 10 credit hour curriculum, representing a 20% change in content. The updated Certificate program will continue to be offered at five previously approved sites and will be taught by current faculty.

Since the revised program will use mostly existing course content and faculty, and will require no additional resources, the College has determined that the change does not represent a significant departure.

We acknowledge the information and will add it to our files.

Should you need assistance, please contact Dr. Denise Y. Young at 404-679-4501, ext. 4524 or via email at dyoung@sacscoc.org.

Please include the Case ID number above in all submissions or correspondence about this substantive change.

Sincerely,

Kevin W. Sightler, Ph.D.
