April 26, 2017

Dr. Belle Wheelan
Southern Association of Colleges and Schools
Commission on Colleges
1866 Southern Lane
Decatur, GA 30033

Dear Dr. Wheelan:

Please be informed that Lanier Technical College wishes to repackage a number of courses currently offered in our Industrial Systems Technology and Computer Information Systems AAS degree programs as well as a previously approved Wireless Engineering Technology AAS degree program (approved by the Commission on November 1, 2016). Our intention is to begin offering the program at our Oakwood and Barrow campuses in August 2017.

Seventy-five percent (75%) of the courses in the proposed program are included in LTC's currently approved curricula. Within the courses that make up the remaining 25%, a significant number of course competencies are embedded within other courses currently taught at Lanier Technical Colleges. We believe the new program will provide a valuable opportunity to new students and to professionals currently working in the telecommunications field.

Please respond with a letter of notification indicating the Commission's judgment regarding this proposed program addition. Should you have any questions, please contact our Accreditation Liaison, Dr. Joanne Tolleson, at jtolleso@laniertech.edu or (678) 341-6640.

Sincerely,

A handwritten signature in blue ink that reads "D. Ray Perren".

D. Ray Perren, D.S.L.
President
