May 9, 2016

Dr. Belle Wheelan
Southern Association of Colleges and Schools
Commission on Colleges
1866 Southern Lane
Decatur, GA 30033

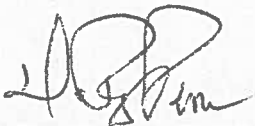

Dear Dr. Wheelan:

Please be informed that Lanier Technical College wishes to repackage a number of courses currently offered in our Industrial Systems Technology and Computer Information Systems AAS degree programs as a new program in Wireless Engineering Technology (AAS degree), to be offered beginning January 2017 at our Oakwood and Barrow campuses.

Seventy-eight percent (78%) of the courses in the proposed program are included in LTC's current curricula. We believe the new program will provide a valuable opportunity to new students and to professionals currently working in the telecommunications field.

Please respond with a letter of notification indicating the Commission's judgment regarding this proposed program addition. Should you have any questions, please contact our Accreditation Liaison, Dr. Joanne Tolleson, at jtolleso@laniertech.edu or (678) 341-6640.

Sincerely,

D. Ray Perren, D.S.L.
President
