

Federal regulations require colleges to disclose information regarding their occupational programs that require a state licensure to be employed. Reference the program of choice, and view the status that program has for your state of residence at the initial time of enrollment. If the state you are located in does not appear, we cannot guarantee the program if study will be able to lead you to a state occupational licensure in your state.

Programs Leading to Licensure	States in which Program MEETS Licensure Requirements	States in which Program does NOT meet Licensure Requirements	Notes and Additional Links
