Trained to be the Best!

The "Math Multiplies Opportunities" Team asked Mrs. Kim Nolting to train our math tutors in order to be best prepared to serve Lanier Tech's students. Mrs. Nolting guided the tutors so they fully understand the learning support classes. The tutors are knowledgeable in how to access student needs and discover the best way to help them. Training by Mrs. Nolting included creating a comfortable learning environment, identifying the purpose of the session and what needs to be accomplished, guiding the student to decide how to do each step of the task, working through the session, asking the student to summarize, bringing closure to the session, and planning for future studying.

Sounds like our tutors are here to multiply opportunities.

Great Careers Begin Here!

Paul and Kim Nolting provide consulting and products to improve student success.
