## Instructions for Prerequisite G.P.A. Forms

Each G.P.A. form MUST BE COMPLETED & included with your application packet.

- An example of how to calculate a G.P.A. has been provided below. Utilize the **Prerequisite G.P.A. Form** at the bottom of this page calculate your grade point averages and record the averages on Page 1 of the application.
- If you are enrolled in a course or intend to enroll in a prerequisite course and do not have a grade at the time the form is completed, do not include the number of credit hours or quality points in the respective (QH) or (QP) columns; simply place an X in the boxes (QH) and (QP) next to the required course identified. Please indicate the course is to be taken or currently in progress in the column where the grade would be recorded. Simply write "in progress" or indicate when you plan to take the course.

Where Course Was Completed	Course Identification	QH (Quality Hours)  Credit Hours per course	Multiply	EV (Equivalent Values) Of the earned Letter Grade  A=4, B=3, C=2, D=1, F=0	Equals	QP (Quality Points)  <b><math>QH \times EV = QP</math></b>
CSU	ENGL 1101	3	x	4	=	12
CSU	MATH 1110	3	X	3	=	9
CSU	BIOL 2113/L	4	X	3	=	12
UNG	BIOL 2114/L	4	X	3	=	12
UNG	PSYC 1101	3	X	4	=	12
LTC	PSYC 2103	3	X	3	=	9
LTC	HUMN 1101	3	X	4	=	12
LTC	PHYS 1110/L	4	x	2	=	8
Total QH:		27	Total QP:			86
<b>86 QP / 27 QH = 3.19 GPA</b>						

1. Once all information has been placed in the appropriate column, total the QH column (number of credit hours **QH**) for the courses that have been completed. If a grade has not been earned, simply place an **X** in the **QH** column for that course.
2. The equivalent value must be assigned for the grade earned for the course. If you earn an A, then it is equivalent to a 4, and so on. (A=4, B=3, C=2, D=1, F=0) If a grade has not been earned, simply place an **X** in the **QP** column for that course.
3. Calculate the **QP** for each course by multiplying number of credit hours (QH) by the equivalent value of the grade earned for the class.
4. Total the last column, quality points/**QP**, and then complete the formula **Total QP ÷ Total QH = G.P.A**
5. Complete the **Prerequisite G.P.A. Form** below and record averages on Page 1 of the application.
