- You Spoke and We Listened!
- What's Going to Change in Learning Support Math?
- Logo Contest Winner!

What's a QEP?

A Quality Enhancement Plan (QEP) is a five-year plan dedicated to helping Lanier Tech students succeed! The QEP is a vital part of Lanier Tech's re-accreditation process with our accrediting body, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

Every institution of higher education that is accredited by SACSCOC develops a QEP as part of the reaffirmation of accreditation process.

You Spoke and We Listened!

Based on feedback from the Lanier Tech community, the topic chosen for Lanier Tech's Quality Enhancement Plan is Math. As a result, the new and improved Math Learning Support Program will begin with our pilot classes in spring semester, 2016.

What's going to change in Learning Support Math?

- ◇ Face to Face Instruction
- ◇ Enhanced Tutoring Services
- ◇ Study Skills Curriculum
- ◇ Direct application of math skills to your occupational courses

"I am excited about our QEP. I believe Math Multiplies Opportunities will help us maintain our focus on improving math achievement across the college curriculum. I am very impressed with how our instructors worked to develop this plan. I look forward to seeing the plan implemented."

*-Dr. Ray Perren, President
Lanier Technical College*

Logo Contest Winner!

Lanier Tech's Student Government Association sponsored The Quality Enhancement Plan (QEP) logo contest, with 17 Lanier Tech students submitting entries. Hundreds of students, faculty, and staff voted, with the winning entry designed by Ilse Hayakawa.

Ilse, a "RadTech" student at the Oakwood campus, applied her artistic skills learned in high school to create the winning logo. She explained that she was "inspired by the QEP slogan, Math Multiplies Opportunities and the Lanier Tech logo colors."

Ilse won an I-Pad Mini! Congratulations Ilse!
